Saint Edward High School vs. Cleveland Heights | **3/11/2026** | **Prepared by: Coach Donelon**

Cleveland Heights enters the Sweet 16 matchup with an overall record of 15–9 and is 7–3 over their last 10 games. On the offensive end, they will run several actions including Our 3 Action, Circle Motion, Shuffle Action, and Drive and Kick. They also utilize 5-Out, Horns to Post ISO, Diamond to Side Ball Screen, 1–4 to Post ISO, and Richmond Action against zone. Defensively, Cleveland Heights will primarily play man-to-man in the half court and will sag off to force drive-and-kick situations. They will also show 1–2–2 (3/4 court pressure) and 2–2–1 full court pressure, along with some 2–3 zone. Against pressure they look to attack the middle, but can have slow rotations. On ball screens they will blitz, post defense is behind and high side, and on pin downs they will lock and trail. For St. Edward, it will be important to play with poise, control the glass, eliminate transition opportunities, move without the ball, cut to the rim, and play with swagger.

Favorite Sets

OUR 3 ACTION

CIRCLE MOTION — SHUFFLE ACTION

DRIVE AND KICK

5 OUT — HORNS TO POST ISO

DIAMOND TO SIDE BALL SCREEN

1-4 TO POST ISO — ZONE - RICHMOND ACTION

Last 2 Minute Sets/ Special Situations

BLOB - BOX - J ACTION

BLOB - BOX - S+S

BLOB - BOX TO ELEVATOR

SLOB - FLEX

SLOB - ZIPPER - MIDDLE BALL SCREEN

Offensive Tendencies

- 27.5 REBOUNDS PER GAME
- 13.4 ASSISTS PER GAME
- 9.8 TURNOVERS PER GAME
- 7.3 STEALS PER GAME
- 20 3PT FGA PER GAME
- 34% 3PT
- 18.8 FTA PER GAME

Defensive Tendencies

- Primarily looking to play man to man in the half court
- Will sag off - Drive and Kick
- Will show some 1-2-2 (3/4 court)
- 2-2-1 Full Court Pressure
- Have shown some 2-3 zone
- Look to attack MIDDLE against pressure - Slow rotations in pressure
- Ball Screens - Will look to BLITZ
- Post Defense - Behind and High Side
- Pin Downs - Lock and Trail

Strengths

- LONG - ATHLETIC
- REBOUNDING - ESPECIALLY O. GLASS
- ON BALL DEFENSIVE PRESSURE
- ABILITY TO DRIVE THE BALL

Weaknesses

- SHOT SELECTION
- TRANSITION DEFENSE
- ROTATIONS IN HALF COURT DEFENSE
- FREE THROW SHOOTING

LAST FIVE GAMES

Date	Opponent	Score	Leading Scorer	Leading Rebounds	Leading Assists
3/7	St. Ignatius	56 - 49 W	#0 - 19 Points	#0/4 - 10 rebs	#1 - 4 assists
3/4	Berea-Midpark	65 - 57 W	#0 - 19 Points	#1 - 10 rebs	#3 - 3 assists

STARTERS

RIGHTY		SENIOR	10.4 PPG	PRIMARY PG - DRIVE 1ST	
#3 Jhayce Boyd	6'0		67% FT	ELIMINATE PAINT TOUCHES - KEEP OFF GLASS - NO FACE CUTS	

He serves as the team's primary point guard and is very quick in the open court, capable of pushing the pace and creating opportunities in transition. Approximately 20% of his field goal attempts come from three-point range, where he is shooting an efficient 38%. He is a drive-first guard who is comfortable attacking both left and right, though he heavily favors finishing going to his right hand. When attacking the rim, he tends to avoid contact and will often rely on a floater to finish rather than challenging defenders directly. At times he will force low-percentage shots when trying to create offense.
From the perimeter, he is capable both as a catch-and-shoot option and creating his own space off the dribble for three-point attempts. Defensively, it will be important to locate him early in possessions and keep him off the glass, as he is averaging 3.4 rebounds per game. Emphasis should also be placed on eliminating his paint touches and containing his dribble penetration to limit his effectiveness.

RIGHTY		SOPH	7.0 PPG	3PT - GLASS	
#5 Messiah Williams	6'2		61% FT	CONTEST OUTSIDE SHOTS - KEEP OFF GLASS	

He is a very physical wing who plays aggressively and is currently averaging 6.5 rebounds per game, making it important that we locate him early and keep him off the glass. Offensively, 45% of his field goal attempts come from three-point range, though he is shooting 30% from outside and is primarily a catch-and-shoot shooter from the perimeter, so we must still contest his outside attempts.

From the right block, he prefers to attack baseline, while from the left block he will face up or attack the middle. He looks to bully defenders on drives to the rim and can get out of control at times trying to go through defenders. He also has a free throw line extended jumper and the ability to finish going left or right at the rim. Defensively, the emphasis should be keeping him off the boards, contesting outside shots, and eliminating face cuts.

RIGHTY		SENIOR	9.6 PPG	HIGH VOLUME 3PT	
#4 Charles Butler	6'3		67% FT	CONTEST OUTSIDE SHOTS - MAKE HIM DRIVER	

A perimeter-oriented guard who takes 52% of his field goal attempts from three-point range and possesses very deep shooting range. He is primarily a catch-and-shoot threat from the perimeter, but is willing to take contested three-point attempts if given space. He averages 4 rebounds per game and shows good activity on the glass. Off the dribble, he has an explosive first step to the rim and can finish going both left and right, often using a Euro step or spinning middle on drives to create angles at the basket. He is also capable of a pull-up jump shot off the dribble. Defensively, we must locate and contest his outside shots, force him to become a driver, and keep him off the glass.

RIGHTY		SENIOR	12.7 PPG	DRIVE 1ST FORWARD - GLASS	
#0 Noah Blue	6'3		60% FT	ELIMINATE PAINT TOUCHES - KEEP OFF GLASS - NO FACE CUTS	

This player is a physical scorer who is very active on the offensive glass, averaging 5.5 rebounds per game. While 27% of his field goal attempts come from three, he is shooting 35% from outside, making him a capable perimeter threat.

He moves well without the ball, frequently cutting to the rim and looking for drive-and-dump opportunities. He has an explosive first step, will spin middle on drives, and has the ability to finish going left or right at the rim. From the right block he attacks baseline, and from the left block he looks to attack middle, often trying to bully defenders on drives.

Defensively, the focus should be to eliminate paint touches, keep him off the glass, and take away face cuts.

RIGHTY		SENIOR	14.1 PPG	ATHLETIC STRETCH FORWARD
#1 Jamell Stephens	6'5		66% FT	LOCATE EARLY - ELIMINATE PAINT TOUCHES - KEEP OFF GLASS

Long, lanky forward who averages 6.5 rebounds per game and is very active around the glass. He is primarily a drive-first player who looks to attack the paint and apply pressure at the rim. He can finish going left or right, though he prefers to finish going right, and will use a floater or Euro step when attacking the basket. He has the ability to finish through contact and play above the rim. He also moves well without the ball, cutting to the rim and leaking out in transition for easy scoring opportunities. Defensively, he is active in the passing lanes and looks to create steals. From the perimeter, 27% of his field goal attempts come from three-point range, where he is shooting 32%. He is capable of catch-and-shoot or creating off the dribble, including a step-back three, and will also mix in short-arm mid-range jump shots. Defensively, the key is to eliminate paint touches, keep him off the glass, and contest outside shots.

BENCH

RIGHTY	SOPH	4.1 PPG	**HIGH VOLUME 3PT**
#10 Chase Nixon **6'0** **155 LBS**		55% FT	CONTEST HIS SHOTS - MAKE HIM DRIVER

A perimeter-oriented scorer, 72% of his field goal attempts have come from three-point range, where he is shooting 37% from outside. He is primarily a catch-and-shoot threat from the perimeter and will look to get his shots off quickly when his feet are set. When he does put the ball on the floor, he is mainly looking to finish going to his right. He can be pressured into turnovers and tends to be loose with the ball when dribbling, making him vulnerable to defensive pressure. Defensively, we must locate him early as he will leak out in transition, close out hard on his outside shots, and force him to become a driver rather than allowing clean catch-and-shoot opportunities.

RIGHTY	SENIOR	1.5 PPG	**ROLE PLAYER - GLASS**
#34 Christian Williams **6'2**		67% FT	KEEP OFF GLASS - WALL UP

Limited-action role player who has not attempted a three-point field goal this season. He is most effective scoring around the rim and needs to be close to the basket to produce offensively. From the right block he looks to attack baseline, and he is active looking for offensive put-backs and second-chance opportunities. He will also look to score off drive-and-dump-off situations around the rim. Defensively, we must keep him off the glass and be prepared to wall up at the rim.

LEFTY	SENIOR	5.1 PPG	**POST - GLASS**
#12 Deon Solomon Jr. **6'3**		26% FT	KEEP OFF GLASS - WALL UP

Has not attempted a 3-point field goal this season and is averaging 3.2 rebounds per game. Primarily a paint scorer who runs the floor well and looks to finish at the rim. He scores on drives and dump-offs and will use a floater to finish when around the lane. On the left block, he will face up or attack middle, though he has also shown the ability to attack baseline from that side. On the right block, he will look to attack baseline and will spin middle on post entries. He will try to use his size to bully defenders in the post. We need to prepare to wall up defensively and keep him off the glass.
