Saint Edward High School vs. Princeton	3/21/2026	Prepared by: Coach Donelon

Princeton enters the OHSAA Final Four with an overall record of 23-3. On the offensive end, expect them to run a variety of actions including Thumbs Down, Ghost-UCLA-Ball Screen, DHO Action, Back Door looks, DHO to UCLA to Pin, and UCLA to Ghost Screen. They are disciplined and structured, with multiple options built into each set to create scoring opportunities both at the rim and from the perimeter. Defensively, they will apply consistent pressure with full-court man-to-man and Run and Jump concepts. In special situations, they will look to "BLACK" on BLOB/SLOB actions. In the half court, they will mix in a 1-3-1 zone with traps to the ball over half court, along with some 2-3 zone possessions to disrupt rhythm. We must eliminate turnovers, own the glass, eliminate face cuts, and stay composed throughout. Play poised, play confident, and play with swagger.

Favorite Sets

THUMBS DOWN
GHOST-UCLA-BALL SCREEN
DHO ACTION
BACK DOOR DHO TO UCLA TO PIN
UCLA TO GHOST SCREEN

Last 2 Minute Sets/ Special Situations

BLOB - DOUBLE STAGGER / LOB PLAY
BLOB - BOX TO UP SCREEN
BLOB - 2 - ELEVATOR SCREEN
BLOB - 15 - BACK SCREEN

Offensive Tendencies

15.9 3PT ATTEMPTS PER GAME
33.2% 3PT SHOOTING
14.15 FTA PER GAME
7.8 OFFENSIVE REBOUNDS PER GAME
9.6 STEALS PER GAME

Defensive Tendencies

FULL COURT MAN TO MAN - RUN AND JUMP
BLOB/SLOB - WILL LOOK TO BLACK
1-3-1 HALF COURT - TRAP TO BALL (OVER HALF)
LITTLE 2-3 ZONE
LOOK FOR STEALS

Strengths

TRANSITION OFFENSE
VERY QUICK AND ATHLETIC
MOVE WELL WITHOUT THE BALL

Weaknesses

CONSISTENTLY REBOUNDING
TRANSITION DEFENSE

LAST FIVE GAMES

Date	Opponent	Score	Leading Scorer	Leading Rebounds	Leading Assists
3/14	Oak Hills	49 - 22 W	#4 - 12 points	#11 - 7 rebs	#2 - 4 assists
3/11	Huber Heights Wayne	62 - 41 W	#4 - 20 points	#4 - 10 rebs	#2 - 7 assists
3/7	Hamilton	64 - 49 W	#4/11 - 20 points	#11 - 5 rebs	#2 - 5 assists
3/3	Little Miami	79 - 24 W	#0 - 17 points	#4/11 - 6 rebs	#2 - 6 assists
2/27	Lima Senior	65 - 61 W	#2 - 19 points	#4 - 14 rebs	#4 - 7 assists

Keys To Victory		
	TRANSITION DEFENSE	LIMIT PAINT TOUCHES
	LIMIT TO ONE SHOT - OWN THE GLASS	SHOT SELECTION - PASS A GOOD FOR A GREAT LOOK
	LIMIT TURNOVERS	DO THE LITTLE THINGS - 50/50 BALLS - CHARGES

STARTERS

RIGHTY		SENIOR	8.5 PPG	PRIMARY PG	
#2 Jordan Johnson	5'11		64.7% FT	LOCATE EARLY - KEEP IN FRONT - ELIMINATE PAINT TOUCHES	

Jordan serves as the team's primary point guard and is a very quick guard who does a solid job handling the basketball and controlling the tempo of the offense. He is a reliable perimeter option, with 42% of his field goal attempts coming from three-point range, where he is shooting 35% from the outside. Most of his perimeter looks come in catch-and-shoot situations, making it important to locate him early in transition and in half-court defense. Jordan is also capable of attacking off the dribble, using change of direction, hesitation moves, and changes of speed to get downhill toward the rim. When driving the basketball, Jordan does an excellent job playing off two feet and is comfortable finishing with contact at the rim. He has the ability to attack and finish going either left or right and will also utilize a floater when defenders take away the direct path to the basket. Defensively, he is a very aggressive on-ball defender who will apply pressure to opposing ball handlers. From a defensive standpoint, we must locate him early, keep him in front of us, and work to eliminate paint touches while contesting his catch-and-shoot opportunities from the perimeter.

RIGHTY		SENIOR	13.4 PPG	HIGH VOLUME 3PT	
#0 Rognny Santiago	5'11		74.2% FT	LOCATE EARLY - KEEP IN FRONT - CONTEST OUTSIDE SHOTS	

Rognny is a perimeter-oriented player with 58% of his field goal attempts coming from three-point range, where he is shooting 43% from the perimeter, making him primarily a catch-and-shoot threat from outside. He moves well without the ball and will cut to the rim, forcing defenders to stay alert. Rognny is a solid ball handler, although he can get out of control at times when attacking off the dribble. When driving, he has shown the ability to finish going left or right at the rim, but he prefers to finish going to his right and will often spin back right to create space. Around the basket he will use a floater or a Euro step to finish, typically looking to avoid contact at the rim. While most of his offense comes from catch-and-shoot opportunities, he will use one or two dribbles to create time and space for perimeter shots. Defensively, we must locate him early, keep him in front, contest his outside shots, and eliminate face cuts to limit his effectiveness.

LEFTY		SOPH	14.4 PPG	STRETCH FORWARD	
#4 Kam Mercer	6'5		68.5% FT	LOCATE EARLY - KEEP IN FRONT - ELIMINATE PAINT TOUCHES	

Kam is a highly athletic, left-handed forward who is most effective attacking downhill and playing in transition. He is a capable ball handler and dangerous in the open floor, consistently looking to get to his left and finish at the rim. In the post, on the right block he will attack baseline or spin back middle, and on the left block he looks to attack middle and spin back baseline. He will look to bully his defender and is able to finish going left and right, doing a strong job finishing through contact. He is not a perimeter threat, with just 12% of his field goal attempts coming from three and shooting 15% from beyond the arc. He is very active on the glass, averaging 5.9 rebounds per game and creating second-chance opportunities.
Defensively, we must locate him early, keep him off the glass, wall up, and eliminate paint touches to take away his downhill ability.

RIGHTY		JUNIOR	17.7 PPG	SCORER MENTALITY	
#11 A'mire Gill	6'2		80.2% FT	ELIMINATE FACE CUTS - KEEP OFF GLASS - WALL UP - CONTEST OUTSIDE SHOTS	

A'mire is the primary offensive weapon for Princeton and a high-level three-level scorer. He is shooting 40% from three, with 31% of his field goal attempts coming from beyond the arc, making him a consistent catch-and-shoot threat. He moves very well without the ball, cutting to the basket and finding scoring opportunities within their offense.
He is effective off the dribble and in post-ups, favoring his left hand when finishing. From the left block, he will attack baseline, while from the right block he prefers attacking middle. He can also get to a mid-range jump shot off the dribble, adding another layer to his scoring ability. He contributes on the glass as well, averaging 4.9 rebounds per game.
Defensively, we must eliminate face cuts, keep him off the glass, wall up on drives, and contest all outside shots.

RIGHTY		JUNIOR	9.7 PPG	DRIVE FIRST WING
#5 Amir Phillips	6'2		55% FT	ELIMINATE FACE CUTS - KEEP OFF GLASS - ELIMINATE PAINT TOUCHES

A'mir is an athletic wing who makes his biggest impact attacking the paint and playing in transition. He will leak out in transition and look to create easy scoring opportunities before the defense is set. In the half court, he is at his best when he has space to operate, putting his head down and getting downhill. He highly favors finishing going to his right and will look to spin back when cut off, showing a strong preference for attacking the rim rather than settling. He also moves well without the ball, consistently cutting to the rim and finding openings in the defense for easy finishes. While he is capable from the perimeter, just 7% of his field goal attempts have come from three, where he is shooting 33.3%, making him primarily a catch-and-shoot option from outside rather than a volume perimeter threat. His offensive efficiency is driven by his ability to get inside and finish plays. He averages 4 rebounds per game and brings activity on both ends, particularly with his effort and athleticism. Defensively, we need to eliminate paint touches, eliminate face cuts, and keep him off the glass to limit his overall impact on the game.

Thoughts for the game

GUYS TO FOUL IN LATE GAME SITUATION	GUYS TO AVOID FOULINIG
#20 - #15 - #12	#1 - #10

BENCH

RIGHTY — SOPH — 0.6 PPG — **DRIVE FIRST GUARD**

#1 Nehemiah Neal 5'7 — 75% FT — KEEP HIM IN FRONT - ELIMINATE PAINT TOUCHES - NO FACE CUTS

A role player who primarily contributes as a backup guard in limited minutes, he is not a primary scoring option and has a minimal offensive role within their system, typically providing depth and maintaining tempo rather than creating consistent offense. He is shooting 16% from three-point range, with 50% of his field goal attempts coming from beyond the arc, showing that most of his scoring opportunities come from the perimeter, though he is not an efficient threat. He will catch and shoot as well as take outside shots off the dribble. When he attacks, he wants to finish going to his right and will look to spin back right. He does not finish well through contact at the rim and will often rely on a floater to finish. He moves well without the ball and is capable of getting to a short corner jumper off the dribble. Defensively, we need to keep him in front of us, eliminate paint touches, and contest all outside shots.

RIGHTY — JUNIOR — 0.3 PPG — **ROLE PLAYER**

#20 Mike Nixon 5'9 — NO ATT — ELIMINATE PAINT TOUCHES - NO FACE CUTS - CONTEST SHOTS

Mike is a backup guard who plays limited minutes and fills a role primarily on the defensive end. He is a role player who provides energy, ball pressure, and effort when he is on the floor, typically in short spurts off the bench. His impact is not centered around scoring, but rather his ability to apply pressure and stay active defensively. Offensively, he has extremely limited production. He is shooting 0% from three-point range, with 42% of his field goal attempts coming from beyond the arc, indicating that when he does look to score, it is primarily from the perimeter. He will move well without the ball and is primarily a catch-and-shoot option from the outside. When he does put the ball on the floor, he looks to attack going to his right. However, with very few total attempts on the season, he is not a consistent offensive threat and is not someone they rely on to generate points. Defensively, we need to prepare to eliminate paint touches, no face cuts, and contest outside shots.

RIGHTY — SENIOR — 5.7 PPG — **DRIVE FIRST GUARD**

#10 Sebastian Jordan 6'1 — 100% FT — KEEP HIM IN FRONT - ELIMINATE PAINT TOUCHES - NO FACE CUTS

Sebastian is a senior guard who provides depth in their backcourt and plays with an attacking mindset. He is most effective getting downhill, where he favors going to his right and can create for himself or others. He is dangerous in transition and moves well without the ball, making cuts to the rim. 25% of his field goal attempts have come from three-point range, where he is shooting 33.3% from three. He is primarily a catch-and-shoot threat from outside when his feet are set. He will also use a floater and has a turnaround jump shot in the mid-range, but does not finish well with contact at the rim. Defensively, we need to keep him in front, eliminate straight-line drives, and build a wall early in transition. Contest all outside shots and force him to score over length in the half court.

LEFTY — JUNIOR — 1.4 PPG — **HIGH VOLUME 3PT**

#15 Alonzo Gill 6'2 — NO ATT — CONTEST HIS OUTSIDE SHOTS - FORCE TO BECOME DRIVER

Alonzo is a left-handed, stand-still shooter who operates almost exclusively from the perimeter, with 80% of his field goal attempts coming from three-point range, where he is shooting 32% from three. He is primarily a catch-and-shoot threat from outside, most effective when his feet are set and he has time and space to get his shot off. He does not present much of a threat off the bounce and is not a strong ball handler. When he does put the ball on the floor, he has primarily looked to finish going to his left. His lack of lateral quickness also makes him a player that can be attacked defensively. Overall, he is a one-dimensional perimeter shooter who must be accounted for beyond the arc. We must contest his outside shot and force him to become a driver, where he is far less effective.

RIGHTY — JUNIOR — 2.2 PPG — **DRIVE FIRST GUARD**

#12 Terrance Jones 6'1 — 28.6% FT — ELIMINATE PAINT TOUCHES - KEEP HIM IN FRONT

A physical, strong guard who primarily impacts the game through effort plays rather than scoring. Only 5% of his field goal attempts have come from three-point range, and he is shooting 0% from three, showing he is not a perimeter threat. He is a driver-first player who is extremely right-hand dominant, looking to attack the rim and create off the bounce rather than space the floor. He does not finish well with contact at the rim and will use a floater to finish over length. He plays with toughness, is active on the offensive glass, and looks to generate second-chance opportunities.

Defensively, we must keep him in front of us and eliminate paint touches. We can help off him in the half court, but must close out under control and finish possessions by boxing him out to keep him off the glass.
