Saint Edward High School vs. Toledo St. John's	2/20/2025	Prepared by: Coach Donelon

Toledo St. John's enters our contest at 16–5 and recently won the CHSL Conference Championship. This will be a very hostile environment, and they prefer to play a slower, methodical style. We must set the tone and dictate the pace from the start.

Offensively, they operate out of 1–4 High with screen opposite, "Our 3" action, Box sets, 1–4 to UCLA, 1–4 to weakside double, and middle ball screens. They go as #4 and #24 go. They have capable outside shooters, so we must contest and take away rhythm shots.

Defensively, they primarily play half-court man-to-man, with some 2–3 and 1–3–1. They can be prone to giving up the middle. They will hedge and fight over ball screens, push on DHO, and show trapping over half court. We must play with pride, poise, and swagger while controlling tempo for four quarters.

Favorite Sets	Last 2 Minute Sets/ Special Situations
1-4 HIGH - SCREEN OPPOSITE	END OF CLOCK - 1-4 LOW
OUR 3 ACTION	BLOB - DIAMOND
BOX	BLOB - PIN to BALL SCREEN
1-4 TO UCLA	BLOB - BOX TO DOUBLE
1-4 TO WEAKSIDE DOUBLE	
MIDDLE BALL SCREEN	

Offensive Tendencies	Defensive Tendencies
24.6 3PT FIELD GOAL ATTEMPTS PER GAME	Half court man to man primarily
34.6% SHOOTING FROM 3PT	Have shown some 2-3 and 1-3-1
11.6 FTA PER GAME	Prone to give up the middle
68.1% SHOOTING FROM FREE THROW LINE	Post - Slip front or play behind
8 OFFENSIVE REBOUNDS PER GAME	Lock and trail on weak side action
	Ball Screens - They will look to hedge and fight over the screens
	DHO - They have pushed
	Have shown some trapping action over half court - Trapping to the ball

Strengths	Weaknesses
Ability to get hot from 3pt	Bench production/Depth
Value each possession	TRANSITION DEFENSE
Pace of play - they want to slow it down	
Free Throw Shooting	
Solid PG play	
#24 can score in bunches	

LAST FIVE GAMES

Date	Opponent	Score	Leading Scorer	Leading Rebounds	Leading Assists
2/13	Catholic Central (MI)	48 - 47 W			
2/11	St. Mary's Prep	50 - 44 W			
2/7	Detroit Jesuit	67 - 57 W			
1/31	Big Walnut	83 - 52 W			
1/30	Brother Rice	65 - 53 W			

Keys To Victory		
	TRANSITION DEFENSE	OWN THE GLASS
	KEEP THEM IN FRONT	PRESSURE THEM INTO CARELESS TURNOVERS
	NO STRAIGHT LINE DRIVES/MIDDLE	PLAY WITH HIGH ENERGY AND SWAG

STARTERS

RIGHTY			SENIOR	11.9 PPG	POINT GUARD - DRIVE 1ST	
#4 Ethan James	6'1	170 LBS		66.7% FT	ELIMINATE PAINT TOUCHES - KEEP IN FRONT	

Quick and dynamic point guard who is very dangerous in the open court. He has an explosive first step and is a capable driver who can finish with either hand at the rim. He consistently looks to attack off the bounce and will use inside-out dribbles, crossovers, euro steps, and a crow hop to create angles to score. He also shows touch with a floater in the lane. When driving right, he will look to spin back middle into a pull-up jumper. He is aggressive off the dribble and wants to live in the paint. Only 14% of his field goal attempts have come from three-point range, and he is shooting 31% from three, indicating he is much more comfortable attacking than settling. Defensively, we must keep him in front, be physical with him, and most importantly eliminate paint touches. Force him to score over length and contest without allowing downhill drives.

RIGHTY			JUNIOR	8.7 PPG	HIGH VOLUME 3PT	
#14 Parker Theobalds	6'3	165 LBS		83.3% FT	CONTEST SHOTS - RUN OFF LINE	

He is a perimeter-oriented scorer, with 86% of his field goal attempts coming from the three-point line, where he is shooting 35%. He is primarily a catch-and-shoot threat from the outside and is comfortable stepping into shots off the pass. He will also use a mid-range pull-up off the dribble if defenders close out too aggressively. When he puts the ball on the floor and drives, he prefers to finish going to his left at the rim.

Defensively, we must locate him early, especially in transition, as he will leak out looking for open threes. Our priority is to contest all outside shots, run him off the line, and force him into tougher, contested plays inside the arc.

RIGHTY			SENIOR	11.9 PPG	STRETCH BIG	
#22 Coy Hamic	6'6	195 LBS		53.6% FT	KEEP OFF GLASS - BE PHYSICAL	

Lanky forward looking to stretch the floor. Twenty-eight percent of his field goal attempts have come from the three-point line, where he is currently shooting 15%. He is primarily a catch-and-shoot threat from the perimeter and will also utilize a mid-range jump shot. From the right block, he prefers to attack baseline; from the left block, he looks to attack middle. He is a capable driver but does not finish well through contact at the rim.
He is active on the offensive glass, averaging 4.9 rebounds per game. We must keep him off the glass, wall up defensively, and be physical. Force him into being a driver, contest his outside shots, and eliminate second-chance opportunities.

RIGHTY			SENIOR	18.4 PPG	SCORER'S MENTALITY	
#24 Race Kowalczyk	6'6	190 LBS		85.7% FT	CONTEST HIS SHOTS - ELIMINATE PAINT TOUCHES	

Long, lanky big with a true scorer's mentality who is committed to play at Bradley next year. He is a major offensive weapon that must be accounted for at all times. Offensively, 53% of his field goal attempts have come from three-point range, and he is shooting 39% from 3PT, making him a legitimate stretch threat. He is primarily a catch-and-shoot player from the perimeter but is comfortable putting the ball on the floor into a mid-range jumper off the dribble. In the post, he will look to back you down and use a turnaround jump shot. On the left block, he prefers to attack middle, while on the right block he attacks baseline. He plays with confidence and is always hunting scoring opportunities.

He is active on the glass, averaging 4.9 rebounds per game, and will pursue second-chance opportunities. We must locate him early in transition, contest all outside shots, and eliminate paint touches. Be physical with him, beast him on the glass, and make him uncomfortable with body pressure. Discipline, toughness, and early identification are critical against this skilled scorer.

RIGHTY			SENIOR	5.3 PPG	STRETCH BIG	
#32 Jack Goodnough	6'8	210 LBS		71.4% FT	CONTEST SHOTS - RUN OFF LINE - KEEP OFF GLASS	

This is a stretch big who spaces the floor at a high level and is a high-volume three-point shooter. 67.5% of his field goal attempts have come from three, and he is converting at an efficient 44% from beyond the arc. He is primarily a catch-and-shoot threat but can also put it on the deck for a mid-range jump shot off the dribble if defenders close out too aggressively. He does a strong job of moving without the ball, relocating along the perimeter and making timely cuts to the rim when overplayed. He is averaging 4.1 rebounds per game, so while not dominant on the glass, he will pursue opportunities. Defensively, our emphasis must be clear: run him off the line and eliminate clean catch-and-shoot threes. We must contest every outside shot with discipline, be physical with him on cuts and box-outs, and make him run the floor every possession. Keep him off the glass and force him into contested shots inside the arc rather than allowing him to get comfortable from three.

GUYS TO FOUL IN LATE GAME SITUATION	GUYS TO AVOID FOULINIG
#42	#10

BENCH

RIGHTY		**SENIOR**	2.2 PPG	**3PT SHOOTER**	
#10 Karter Washington	**5'8**	**155 LBS**	71.4% FT	LOCATE EARLY - CONTEST HIS SHOTS	

Quick guard who will handle point guard responsibilities at times when he is on the floor. He has good handles and solid vision, especially in the open court, so we cannot give him space in transition. We must locate him early, build a wall, and keep him in front at all times. He is primarily looking to finish going to his right on drives to the rim. He does not finish well through contact and will rely on a floater in the paint area rather than attacking through bodies. Defensively, we need to stay disciplined, wall up, and make him score over length without fouling.

Offensively, he is perimeter-oriented, with 57% of his field goal attempts coming from three-point range, and he is shooting 27% from three. He is primarily a catch-and-shoot threat from outside, so we must contest all outside shots under control while eliminating clean looks in rhythm. He is averaging 2.7 rebounds per game. The emphasis remains: locate him early in transition, keep him in front, and contest his perimeter attempts.

RIGHTY		**SOPH**	1.2 PPG	**3 PT SHOOTER**	
#42 Jack Lindsay	**6'1**	**165 LBS**	50% FT	CONTEST HIS SHOTS - RUN HIM OFF THE LINE	

He is primarily a perimeter-oriented player, with 60% of his field goal attempts coming from the three-point line. Despite that volume, he is currently shooting just 11.1% from three, but we still must be disciplined and prepared to contest his outside shots and not allow him to get into a rhythm. He is mainly a catch-and-shoot threat from the perimeter and will also look for a mid-range jump shot off the dribble when given space.

He is not particularly physical and is not extremely strong with the basketball. He does not finish well through contact at the rim, which is something we must take advantage of defensively. Our focus should be to run him off the line, make him put the ball on the floor, and turn him into a driver rather than allowing clean, confident perimeter looks.
